ACA Missions

SUPPORT TO INSTALLATION MANAGEMENT COMMAND

ACA provides contracting and business advisory support to IMCOM through a network of Installation Directorate of Contracting (DOCs), centers, and regional headquarters located at Fort Monroe, Fort McPherson, Fort Shafter, Seckenheim (Germany), and Youngsan (Korea). Services includes base operations, maintenance, minor construction, logistics, food service, security, and environmental support at diverse locations around the world.

SUPPORT TO FORCES COMMAND

ACA provides support to HQ, FORSCOM; FORSCOM installations, and the FORSCOM G-3/G4 staffs in obtaining goods and services for operational planning, training, simulations, flight operations, supply/maintenance operations, logistics, mobilization, and deployment support for Army units.

SUPPORT TO TRAINING & DOCTRINE COMMAND

ACA executes contracts in support of mission requirements and provides business guidance supporting TRADOC's mission to recruit, train, and educate Army soldiers at 33 schools and 16 installations. ACA provides advisory support to TRADOC's Mission and Resource Board in the development of contract requirements to obtain a variety of supplies, doctrine, and service support in order to build and train the new modular Army force structure.

**HQ, ACA ISO 9001:2000
CERTIFIED**

ACA Missions

SUPPORT TO THE ARMY RESERVE

ACA provides contracting support to the United States Army Reserve at four installations and ten Regional Support Command providing a myriad of services, supplies, and support at diverse locations in all 50 states. These offices provide installation, mission services, and supplies markedly enhancing Army Reserve readiness, training, and deployment capabilities.

SUPPORT TO THE MILITARY DISTRICT OF WASHINGTON

ACA provides contract support to Army installations within the National Capital Region at Fort Belvoir, Fort Myer, Fort A.P. Hill, Fort McNair, Fort Meade, Fort Detrick, the Army Research Laboratory, and Arlington National Cemetery. Together with garrison staffs, the ACA provides acquisition planning, market research, contract pricing, procurement, and contract administration support for the acquisition of diverse supplies and services.

SUPPORT TO THE ARMY TEST & EVALUATION COMMAND

ACA provides support to White Sands Missile Range, Yuma Proving Ground, and Dugway Proving Ground for the maintenance of ranges and facilities including electronic instrumentation operations, optical geodetic instrumentation operations, modeling/simulation support, and data management and test coordination support. ACA provides support to IMCOM for the operation of base facilities and the acquisition of goods and services.

**HQ, ACA ISO 9001:2000
CERTIFIED**

ACA Missions

SUPPORT TO USAREUR

ACA provides installation and mission contracting support to U.S. Army Europe at 13 diverse locations and serves as Executive Agent for contracting in the Balkans. These offices acquire goods, provide a myriad of contract services, contingency, and reach-back capability for installation and forward deployed units supporting the Global War on Terrorism.

SUPPORT TO USARPAC

ACA provides contract support for the acquisition of goods and services to USARPAC at seven diverse locations within the USARPAC Area of Operations. ACA provides contracts for base operations, minor construction, supplies, services, Government Purchase Card and contingency support for a myriad of events and exercises supporting Humanitarian Assistance, Disaster Relief, and Military to Military Cooperation missions.

SUPPORT TO THE USARSO

ACA provides contract support for the acquisition of goods and services to U.S. Army South and U.S. Southern Command at seven diverse office locations within the U.S. Southern Command Area of Operations. ACA provides contracts for base operations, minor construction, supplies, services, Government Purchase Card and contingency support for a myriad of events, exercises supporting Humanitarian Assistance, Disaster Relief, and Counter-drug operations.

**HQ, ACA ISO 9001:2000
CERTIFIED**

ACA Missions

SUPPORT TO USARCENT

ACA provides acquisition support to 3RD Army/Army Forces Central Command (ARCENT) at two forward deployed locations within Southwest Asia in Kuwait and Qatar. ACA provides installation and mission support encompassing installation, facilities, security, maintenance, food service, Information Technology, transportation, and contingency support within the ARCENT Area of Operations for the acquisition of goods and services.

SUPPORT TO Eighth U.S. ARMY (EUSA)

ACA provides acquisition support to United States Army and ALL other U.S. forces assigned to the Korean Peninsula. ACA provides installation and mission support encompassing installation, facilities, security, maintenance, food service, stevedoring, Information Technology, health care operations, and contingency support within the Korean Area of Operations for the acquisition of goods and services.

SUPPORT TO CIO G6, PEO EIS, & NETCOM

ACA provides a full spectrum of Information Technology (IT) and commercial item contracts providing enterprise-wide capability for common use IT requirements and programs including Army Knowledge Online (AKO), General Fund Enterprise Business System (GFEBS), Information Technology Enterprise Solution (ITES-2) and Army Desktop and Mobile Computing-2. ACA supports the requirements generation, business strategy, evaluation, award, and contract administration of a myriad of contracts streamlining the acquisition process without sacrificing quality in service.

Initiative - ACA/AMC ASCC support – Dual Hatted OCONUS Command Structure

Army Materiel Command and the Army Contracting Agency agreed to integrate Contingency Contracting Soldiers and Department of the Army Civilians and Local National employees at OCONUS Army Service Component Command locations around the world - USAREUR (Germany), USARSO (Fort Sam Houston), USARCENT (Southwest Asia), and Eighth U.S. Army (Korea). These 19 Soldier modular Contracting Support Brigade Commands join with the Army Contracting Agency civilian staffs providing a single integrated face to Army Service Component Commands. The modular Contracting Support Brigade structure activates on various dates beginning Third Quarter, FY07.

This new Army Materiel Command force structure provides Contingency Contracting support to Army warfighters. Three Active Duty modular Contingency Contracting Battalions activate in FY06/07. A myriad of four soldier modular teams train at selected CONUS/OCONUS AMC and ACA locations around the world.

Initiative - Strategic Sourcing/Spend Initiative with IMCOM

The Army Contracting Agency initiated strategic sourcing/spend analysis effort with Installation Management Command to improve effectiveness of BASOPS procurement. This process adopts proven industry practices of in depth spending analysis identifying significant areas of reoccurring spend, determining candidate commodities for further analysis, and establishing specified commodity teams to profile those commodities and develop full acquisition strategies for implementation. This effort established the following pilot commodities to develop full-scale acquisition/procurement strategies for Automatic Data Processing, Furniture, Maintenance & Repair of Buildings and Structures, Housekeeping, Operations of Buildings and Structures.

**HQ, ACA ISO 9001:2000
CERTIFIED**

Initiative - Support to CIO-G6 - Consolidated Thin Client Server

In conjunction with PEO-EIS Army Small Computer Purchase and CIO-G6, ACA is working a revised acquisition strategy for the bi-annual consolidated procurement of updated Army standard IT configurations incorporating thin-client server capabilities.

This new capability will provide substantial savings across the Army architecture. This revised strategy leverages the current Army Small Computer Program Office and ITEC4 consolidated procurement process developed in FY05 and further refined during successive iterations in FY06.

Concerns - ACA Funding Profile

The Army Contracting Agency's highest priority is to stabilize resources to meet the Army's contracting requirements. ACA executes over \$12.4B annually in contract dollars and directly supports the global war on terrorism by supplying contracted goods and services needed by the war fighters on a daily basis. Currently ACA is not resourced to fully fund all civilian authorizations necessary to perform the Army's contracting mission at headquarters, regional headquarters, and Army installations worldwide. ACA has virtually no overhead dollars for regular support such as travel, training, supplies, IT helpdesk support, equipment, copier rentals, or other support functions. Payroll at full strength is 97.5% of current funding levels and funding of must fund operational cost will be at the expense of staffing levels. ACA is working with the Installation PEG, Organizing PEG, and ABO to mitigate dollar resource levels through the execution and POM years.

**HQ, ACA ISO 9001:2000
CERTIFIED**

Concerns - BRAC and Rebasing

In order to effectively execute mission support and respond to ongoing Army transformation, Army rebasing efforts, Army mandated personnel reductions, and the 2005 BRAC Commission recommendations of the Army Contracting Agency (ACA) must restructure to meet these challenges, and provide our customers with the contracting support required. The ACA must reorganize, reshape and restructure itself to better accommodate the shifting demands of our customers.

The ACA organization, as presently situated, must physically move its headquarters and a handful of its subordinate offices to comply with BRAC Commission recommendations. These BRAC recommended moves afford the ACA with the opportunity and the impetus to restructure itself by: taking advantage of efficiencies gained by the ensuing moves, transforming its business processes, and positioning itself to better serve Army rebasing initiatives and customer contracting requirements.
